

RV lithium battery solar panel system

 **Efficient**
Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 3 MPPT Trackers, 100% DC Input Utilizing
- Max. PV Input Current 16A, Compatible with High Power Modules

 **Intelligent**
Simple O&M

- IP66 Protection Degree, support outdoor installation
- Smart I-V Curve Diagnosis Function, locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD, prevents lightning damage
- Battery Reverse Connection Protection

 **Flexible**
Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-Acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AGC Function (Optional): when an anti-fault is detected the inverter immediately stops operation

Overview

The first thing people thinking about RV solar and lithium need to know is that you need to know if that the more you have, the more you can do with it in terms of off-the-grid camping. A 200-watt RV solar package with a single lithium 100 amp hour battery isn't going to make the huge difference you often hear from RV. **BONUS CONTENT:** It's important to know the basics about solar and batteries. [CLICK HERE](#) for a quick primer on RV solar. The two experts we. Especially if you are spending more travel time in outdoor spaces. Or, perhaps you're living and working from your RV. Traditional campgrounds can also be crowded and noisy. It can sometimes feel like the opposite.
